SOLUTIONS

HEALTHCARE PRODUCT SOLUTIONS

A smart solution providing uninterrupted access (24/7) to pharmaceutical and healthcare products on a much more extensive point-of-sale network.

An efficient and interactive solution providing uninterrupted access (24/7) to pharmaceutical and healthcare products on a much more extensive point-of-sale network. Our solutions are available in a range of storage configurations and stand out for enabling maximum use of available surface area and for providing an interactive and easy-to-use user interface that displays detailed product information prior to purchasing and improves customers' shopping experience, as well as allowing for remote stock management.

One of the broadest ranges of automated dispensing and vending systems on the market that offered Modular solutions that can be adapted to the product and packaging requirements of customers. With a cutting-edge technology to offer genuine smart stores and warehouses with a quick and intuitive system to speed up the purchasing.

ADVANTAGES OF THE SOLUTION

CUSTOMER SATISFACTION
· Unique digital purchasing experience as well as improving the pharmacy's brand exposure.
· Direct communication with the end consumer, who is able to receive guidance throughout the purchasing process and view detailed information on the product of interest before making a purchase.
· Multi-language platform. Easily implemented and access to a greater number of customers in hotels, shopping centres, train stations, etc.

SALES INCREASE
· The eye-catching images displayed on the screens and the products help boost sales. Improves the presentation of your brands to the consumer and is at the technological forefront.
· Encourages customer loyalty with the "Do it yourself" initiative.
· Increases service speed. More customers served 24 hours a day.
· Automation of pharmacy invoicing and reduced operating costs.

MONITORING AND CONTROL OF THE SUPPLY CHAIN
· Traceability. Lets you know what has been dispensed.
· Greater efficiency. Remote control, thus enabling:
  - Stocktaking cost reduction.
