DISPENSING MACHINES

Automated dispensing

What is Casia?

A smart solution to automate the dispensing and control of industrial and other consumable supplies.

- Modular solutions that can be adapted to the product and packaging requirements of customers.
- Automatic systems to return previously purchased products.
- Cutting edge technology to offer genuine smart stores.
- Innovative stock control system that ensures maximum reliability in dispensing data capturing. Possibility of automatic loading of data on the customer system and off-catalogue reservation.
- A speedy and intuitive system to select products by means of touchscreens.

- Optimisation of all the available space. Higher number of selections.
- Versatility thanks to the flexible tray and channel configuration.

- Interactivity. Possibility of incorporating 10.1 and 17- inch touchscreens.
- Possibility of incorporating lifts to provide smooth product delivery, as well as cooling units for products with preservation requirements.
- Security. Vandal-proof locks and payment systems endowed with state-of-the art advances in anti-fraud systems.
- Optionally, fitted to integrate customer loyalty cards.
- Automated management through J-SUITE telemetry platform. Optimal traceability of products and stocks.
- Data capture reliability.

TAOS BASIC

- Control unit capable of managing up to four Casia dispensing units.
- Includes a display and user IDs reader.
- Fitted to install J-LINK communications system and J-SUITE telemetry system. Online operation, with real-time control of users and dispensations.
- Dimensions and weights: 1834.5x248x936 mm / 80Kg.

CASIA DISPENSING UNITS

- The best tool to increase the number of channels and storage capacity.
- Versions:
 - Casia SG: room temperature.
 - Casia SCG: incorporates refrigeration group.
 - Casia SGE: without cold and with elevator.
 - Casia SCGE: Incorporates refrigeration and lift.
- Anti-vandalism security lock with six anchoring points.
- Optionally it can equip ticket printer.
- It supports the installation of different card readers.

TAOS SLIM

- Control unit capable of managing up to four Casia dispensing units.
- Includes a display and user IDs reader.
- Possibility of installing communications system J-LINK and J-SUITE telemetry system.

CASIA DISPENSING UNITS

- The best tool to increase the number of channels and storage capacity.
- Versions:
 - Casia SG.
 - Casia SCG.
 - Casia SGE.
 - Casia SCGE.
- Anti-vandalism security lock with six anchoring points.
- Optionally it can equip ticket printer.
- It supports the installation of different card readers.

Casia Touch 10

- Equipped with a module featuring a 10" interactive screen that can be connected to up to 4 Casia dispensing units.
 - Casia SG. · Casia SCG.
 - Casia SGE. · Casia SCGE.
- Interactive navigation: Product selection based on categories and support of multiple languages.
- Multi-product dispensing and remote management of stocks.
- Total traceability in real time and maximum security regarding supply.
- Visualization of detailed information of each product before the selection.

PANTALLA TÁCTIL

SOFTWARE DE GESTIÓN ADAPTABLE Y PERSONALIZABLE

POSIBILIDAD DE ASCENSOR

Dimensiones y pesos: 1834,5x248x939 mm / 85Kg.

- Equipped with a central module fitted with a 17" interactive touchscreen which can manage up to 4 dispensers.
- Greater interactivity and improved customer experience as it optimises product selection and the remote management of stocks.
- Complete traceability in real time and maximum supply security.
- Fitted to display detailed information on each product, as well as to manage the reservation of the products not suited for delivery through dispensing machines.
